EDUCATION

Sri Shakthi Institute of Engineering and Technology

Coimbatore, Tamil Nadu, India

Bachelor of Technology - Artificial Intelligence and Data Science

2025 - 2029

GPA: 8.71

SKILLS

Programming Languages: Python, C
Libraries/Frameworks: Flask, React
Tools / Platforms: Git, VS Code, Docker, LeetCode, Github
Databases: SQL

PROJECTS / OPEN-SOURCE

Prep4Future - AI Career Preparation | Link

Python, TypeScript, React, FastAPI, Groq

Prep4Future AI is an AI career preparation platform designed to help candidates move from resume upload to interview readiness in one focused workflow. It analyzes resumes against target job descriptions, identifies ATS and keyword gaps, generates personalized interview practice, evaluates answers, and provides career coaching through an AI-powered dashboard. The project is built as a production-ready web application with a React + TypeScript frontend, a FastAPI backend, Groq-powered LLM responses, PDF resume extraction, persistent browser state, downloadable reports, and deployment support for Vercel and Render.

NaturoCrop AI-Powered Farming Assistant | Link

Python, Keras, Tensorflow, Llama3

Developed an AI-based smart agriculture platform that detects plant diseases from leaf images using Deep Learning (MobileNet V2) and provides treatment recommendations through Llama 3 integration. Implemented crop strategy generation based on soil nutrients, season, and location using FastAPI, TensorFlow, and Ollama-powered AI advisory systems.
